GENERAL DESCRIPTION

Our aim is to work closely with our clients to fully understand their requirements and progress each individual project through staged schematic design and consultation phases ensuring the brief is met in full. With a team of highly qualified technicians with many years' accumulated experience our service is second to none. Working closely with major offshore operators and multiple Industry sectors for more than 25 years we have developed well proven strategies for achieving cost effective solutions in the provision of Fixed Fire Suppression Systems.

Specialising in Off-Shore Heli-Deck Systems and Marine & Industrial Solutions Delta offer Fully Containerised Systems, Skid/Frame Mounted Systems, Deluge Systems, Bund Protection Systems and Mudpit Protection Systems to name a few.

Manufactured to exacting standards in the UK we offer a wide range of solutions in the provision of both 'standard package' and 'bespoke' foam systems designed to provide the ultimate in fire protection for a wide range of applications around the world.

PACKAGED SOLUTIONS

Simple Foam Tank Induction Systems

Containerised Nitrogen-Fired Systems
